

IN THE SPECIFICATION

Please replace the paragraph beginning on page 3, line 17, with the following amended paragraph:

Since the information required in the normal playing status can be downloaded in advance while the player is in the abnormal playing status, such as pause status, copyright information status or director annotation status, ~~the phenomena such as playing is not smoothly, even interruption during playing is interrupted and so on~~ can be avoided during the process of playing while downloading.

Please replace the paragraph beginning on page 5, line 10, with the following amended paragraph:

The optical disc player provided by the present invention can play while downloading information while it is in the normal playing status; and can download in advance the information required to be downloaded in the normal playing status while it is in the abnormal playing status besides the normal playing status. The information required to be downloaded in the normal playing status is downloaded in advance while the player is in the abnormal

playing status., ~~and the~~ The downloaded information is stored in the player in order to be used directly without being downloaded while the player is in the normal playing status, thereby avoiding the phenomena that the playing is not smooth, ~~even~~ when the playing is interrupted ~~caused by~~ due to playing while downloading.

Please replace the paragraph beginning on page 7, line 19, with the following amended paragraph:

If there are URLs in the optical disc storage corresponding to the information which is not yet downloaded , the information corresponding to the URLs is downloaded in advance (step S250) and the information that is downloaded in advance is stored in the player 10, in order that the downloaded information in storage of the optical disc player 10 can be used directly when normal playing is resumed, thereby reducing the occurrence of interruption or ~~hiccup~~ hiccup during the process of playing while downloading (Step S270).

Please replace the paragraph beginning on page 8, line 10, with the following amended paragraph:

Since the information required in the normal playing status can be downloaded in advance while the player is in the abnormal playing status, such as pause status, copyright information status or director annotation status, ~~the cases such as playing is not smooth, even interruption during playing is interrupted and so on~~ can be avoided ~~during the process of playing while downloading.~~
